Work History

Full Stack Engineer

Oct 2023 - Jun 2024

Think to Share

Miami, Florida

- Led frontend development using React, Angular and Next.js, as a result delivered high-performing, feature-rich web applications.
- Integrated third-party APIs into applications for added features and capabilities.
- Enhanced system resilience by proactively monitoring application logs for potential issues, troubleshooting problems as they arose.
- Ensured data integrity by designing secure databases using SQL and NoSQL solutions, depending on project requirements.
- Collaborated with cross-functional teams to design, develop, and launch innovative applications.

Full Stack Developer

Mar 2018 - Oct 2023

SmartTech

Calgary, Canada

- Reviewed code, debugged problems, and corrected issues.
- Developed unit test cases for testing and automation.
- Developed scalable backend systems to support high-traffic websites and applications, ensuring smooth operation during peak times.
- Developed functional databases, applications and servers to support websites on the back-end.
- Used NodeJS, ORM and SQL/No-SQL to develop and manage databases.
- Streamlined code deployment processes, resulting in faster product releases and updates.
- Reduced page load times by optimizing front-end assets such as JavaScript files, stylesheets, and images.
- Worked with back-end developers to design APIs.

Front End Developer

Mar 2016 - Jan 2018

Evenset Inc.

Toronto, Ontario

- Utilized HTML, CSS, and Javascript to create visually appealing and responsive web pages that meet client requirements.
- Enhanced user experience by optimizing web applications for maximum speed and scalability.
- Implemented SEO strategies into front end development practices, improving search engine rankings for client websites.
- Produced websites compatible with multiple browsers.
- Optimized site content for mobile devices using responsive design techniques.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Collaborated with back-end developers to improve website functionality and integrate new features.

Education

Bachelor of Science: Computer Science

Jan 2016

University of Waterloo

Waterloo, Canada

- Major in Computer Science
- Minor in Network & Security
- Minor in Data Science

Personal Information

Title: Full Stack Engineer

Tennis & Fishing

- Outside of work, I am an avid **tennis** player.
I enjoy the physical activity and the strategic nature of the sport.
- My experience on the water has instilled in me valuable skills, such as observation, adaptability, problem-solving, and collaboration, which I seamlessly apply in my software development career.
